National Access & Scaffolding Confederation

Enigma Industrial Services are active members of the National Access & Scaffolding Confederation. Established in 1945, the NASC is a trade body who provide invaluable support to leading contracting firms, scaffolding manufacturers, and businesses across the UK. Access and scaffolding provision solutions usually form an important element with most of Enigma's contracts. Many public and private organisations, and an increasing number of local authorities are now specifying that the Access providers they employ must be members of the NASC. To provide organisations with peace of mind and ensures they are receiving the highest quality of service.

Permanent 'Skilled' Workforce

Our highly skilled workforce has the specialist experience and professional qualifications to deliver large-scale complex projects. We continually work on a diverse range of projects and this knowledge and experience enables us to confidently undertake new challenges throughout the UK.

Contract Scaffolding

We are a multi-disciplinary service provider and an industry leader in the provision of scaffolding services and temporary access solutions. Enigma Industrial Services have one of the UK's largest scaffold asset bases, and clients additionally benefit from our in-house Design and Engineering Department. At Enigma, we integrate solutions based on the client's specific requirements and circumstances and provide efficiencies associated with system scaffolding and utilise tube and fitting scaffold for more complex tasks. The organisation continually invests in new equipment and provides nationwide coverage by operating the largest Kwikstage, HAKI and K2 fleets.

We Offer:

- Structural temporary support;
- Scaffold design;
- Temporary roof provision;
- Scaffolding encapsulation;
- Mechanical access;
- Access solutions and coordination;
- Access design and regulation compliance;
- Management of working at heights;
- 85+ years of trading experience;
- Nationwide coverage - delivered from 12 national service centres;
- 1000+ employees - fully trained and continuously assessed;
- One of the UK's largest scaffold asset bases;
- Traditional tube & fitting;
- UK's largest Kwikstage fleet;
- UK's largest HAKI fleet;
- UK's largest K2 fleet;
- In-house QSHE and design & engineering teams;
- Active NASC member and accredited training provider;
- ISO9001:2015, ISO14001:2015, ISO45001:2018, ISO50001:2018 certified.

Insulation

We are active members of TICA and provide; thermal insulation, sheet metalwork fabrication, and installation services and have our own in-house manufacturing facility. With over 70 years of experience, clients benefit from in-house surveying and design services.

We Offer:

- Hot, Cold & Cryogenic;
- Fabrication Shop;
- FIRAS accreditation;
- Leakage detection;
- 70+ years of trading experience in specialist sectors;
- Nationwide coverage - delivered from 12 national service centres;
- In-house surveying and design services;
- In-house manufacturing facility.
- Fully trained and continuously assessed employees;
- In-house QSHE team;
- Wide range of equipment specified to industry standards;
- ISO9001:2015, ISO14001:2015, ISO45001:2018, ISO50001:2018 certified;
- Available as stand alone or as a bundled service;
- Active member of TICA & ACAD;
- Active member of ECIA.

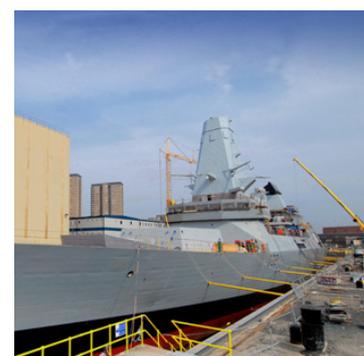

Protective Coatings

Enigma provide Protective Coating application services including industrial painting, shot blasting and corrosion protection services. We assist clients with ongoing storage vessel cyclic maintenance and refurbishment programmes by preparing and re-painting them to provide continuous protection against corrosion. Additionally, we further support clients with comprehensive surveying and analysis services.

We Offer:

- Blasting/surface Preparation;
- Corrosion Protection;
- Industrial Painting;
- Temporary Coatings (Protectapeel);
- Protective surface Coatings;
- 70+ years of trading experience in specialist sectors;
- Nationwide coverage - delivered from 12 national service centres;
- On and off-site service delivery;
- In-house blasting and preparation facility;
- Full surveying and analysis service;
- Provision of environmental containment;
- In-house QSHE team;
- Wide range of equipment specified to industry standards;
- ISO9001:2015, ISO14001:2015, ISO45001:2018, ISO50001:2018 certified;
- Available as stand-alone or as a bundled service.

Scaffolding Hire & Sales

Enigma has over 2000 scaffolding and related products available to purchase or hire and is the official UK HAKI system scaffolding distribution partner. We provide long-term hire partnering agreements and support clients with stock management information services to ensure availability. Our clients benefit from nationwide coverage – delivered from 12 national service centres throughout the UK. Also, to further support client relationships, Enigma’s In-house teams can provide optional design, engineering, QSHE and consultancy services.

To support traditional Tube & Fitting - Enigma provide scaffold systems

Kwikstage Scaffolding is an internationally well-established scaffolding system. Its adaptability and speed of erection linked to safe, robust manufacturing processes enables it to be implemented for a wide range of applications ranging from house building to large industrial applications. Losses are minimal due to the virtual elimination of loose fittings. The system comprises five basic component types, which when combined with

our comprehensive range of accessories, make Kwikstage simple, safe and versatile.

Enigma only uses genuine Kwikstage products that are manufactured by the organisation. Also, the product and manufacturing process has been audited and fully meets the NASC Code of Practise for Scaffold system (Tested & analysed to EN 12810 & EN12811)

As the sole supplier of the fully galvanised K2 Modular system, the scaffolding can be erected up to 50 metres in height without engineering input, and it's possible to adapt structures further using tube and fitting scaffold.

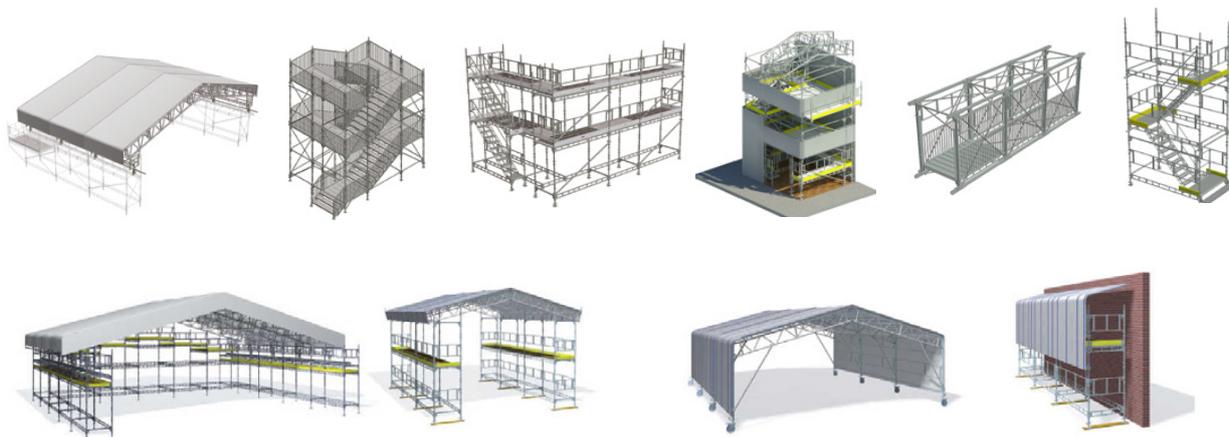

The K2 Modular scaffold system requires 30% fewer ties in comparison to other systems and was initially designed for multi-storey block work, and is ideal for refurbishment projects.

We Offer:

- 50+ years of trading experience;
- Nationwide coverage – delivered from 12 national service centres;
- In-house design and consultancy service;
- Client stock management information services;
- Long term hire partnering agreements;
- Active NASC member and accredited training provider;
- ISO9001:2015, ISO14001:2015, ISO45001:2018, ISO50001:2018 certified.

Official UK  system scaffold distribution partner

Enigma is the official UK distribution partner for HAKI modular scaffolding and tailored access solutions. HAKI leads the way in safe access solutions with their innovative system scaffolding that is safe, adaptable, and quick to assemble. The solutions have been known to increase productivity by up to 60% – due to minimal, lightweight components, and a quick, simple ‘hook-on’ method of erection also improves the safety of operatives on every job.

Industrial Cleaning

We have a wide range of Industrial Cleaning services and have extensive experience working within the food and beverage production and manufacturing sector. Enigma has specialist expertise in cleaning at height or when specialist access is required. The company operate a wide range of specialist equipment and customises cleaning programmes based on the client's specific requirements. Enigma provides deep clean decontamination cleaning services to help protect workplaces.

We Offer:

- UHP Water Jetting;
- Dry Ice Blasting;
- Commercial Cleaning;
- Soft Services;
- 20+ years of trading experience in specialist sectors;
- Nationwide coverage - delivered from 12 national service centres;
- Fully trained and continuously assessed employees;
- In-house QSHE team;
